September 6, 2025, Barbados – The Chief Executive Officer of CIBC Caribbean Bank Limited (“CIBC Caribbean”), Mr. Mark St. Hill, announced that the bank reported a net loss of \$1.1 million for the third quarter ended July 31, 2025, compared with net income of \$65.7 million for the same quarter last year. He said that “results for the third quarter were adversely affected by an item of note related to a \$45.3 million fair value loss on a non-core investment which consists of structured notes issued by a third-party fund. Adjusted net income, which excludes the item of note, was \$44.2 million compared with \$64.7 million for the same quarter last year.”

“Operating expenses were up \$7.6 million or 7% from the same quarter last year, primarily due to higher non-credit losses and investment in key strategic initiatives,” said Mr. St. Hill. “Provision for credit losses of \$21.3 million was elevated this quarter due to higher provisions on impaired debt securities”.

Mr. St. Hill also stated that “at the end of the third quarter, the Bank’s Tier 1 and Total Capital ratios continued to reflect a robust capital position at 18.2% and 20.3% respectively, exceeding regulatory requirements. The Board of Directors approved a quarterly dividend of \$0.0125 per share, payable on October 16, 2025, to shareholders of record as of September 18, 2025.”
